# THE
# BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

**Editorial Board**

JOHN M. ANDERSON, Cornell University
JOHN O. CORLISS, University of Maryland
DONALD P. COSTELLO, University of North Carolina
PHILIP B. DUNHAM, Syracuse University
MEREDITH L. JONES, Smithsonian Institution
F. H. RUDDLE, Yale University
BERTA SCHARRER, Albert Einstein College of Medicine
HOWARD A. SCHNEIDERMAN, University of California, Irvine
MELVIN SPIEGEL, Dartmouth College
GROVER C. STEPHENS, University of California, Irvine
STEPHEN A. WAINWRIGHT, Duke University
CARROLL M. WILLIAMS, Harvard University

W. D. RUSSELL-HUNTER, Syracuse University
*Managing Editor*

VOLUME 145

JULY TO DECEMBER, 1973

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

THE BIOLOGICAL BULLETIN is issued six times a year at the Lancaster Press, Inc., Prince and Lemon Streets, Lancaster, Pennsylvania.

Subscriptions and similar matter should be addressed to The Biological Bulletin, Marine Biological Laboratory, Woods Hole, Massachusetts. Agent for Great Britain: Wheldon and Wesley, Limited, 2, 3 and 4 Arthur Street, New Oxford Street, London, W. C. 2. Single numbers, $5.00. Subscription per volume (three issues), $14.00.

Communications relative to manuscripts should be sent to Dr. W. D. Russell-Hunter, Marine Biological Laboratory, Woods Hole, Massachusetts 02543 between May 23 and September 1, and to Dr. W. D. Russell-Hunter, P.O. Box 103, University Station, Syracuse, New York 13210, during the remainder of the year.

Second-class postage paid at Lancaster, Pa.

LANCASTER PRESS, INC., LANCASTER, PA.

## CONTENTS

No. 1, August, 1973

Annual Report of the Marine Biological Laboratory ..... 1

Berger, Edward M.
Gene-enzyme variation in three sympatric species of *Littorina* ..... 83

Biggs, Douglas C. and John J. McDermott
Variation in temperature-salinity tolerance between two estuarine populations of *Pagurus longicarpus* Say (Crustacea: Anomura) ..... 91

Dunlap, Donald G.
Latitudinal effects on metabolic rates in the frog, *Acris creptans:* seasonal comparisons ..... 103

Gilbert, Mary Ann
Growth rate, longevity and maximum size of *Macoma balthica* (L.) .. 119

Jones, Jack Colvard and Dana Richard Pilitt
Blood-feeding behavior of adult *Aedes aegypti* mosquitoes ..... 127

Lehman, John T. and James W. Porter
Chemical activation of feeding in the Caribbean reef-building coral *Montastrea cavernosa* ..... 140

Loeb, Marcia J. and Richard S. Blanquet
Feeding behavior in polyps of the Chesapeake Bay sea nettle, *Chrysaora quinquecirrha* (Desor, 1848) ..... 150

Ludolph, Carol, David Pagnanelli, and Michael I. Mote
Neural control of migration of proximal screening pigment by retinular cells of the swimming crab *Callinectes sapidus* ..... 159

Marks, Edwin P.
Effects of $\beta$-ecdysone on molt-linked differentiation *in vitro* ..... 171

Oglesby, Larry C.
Salt and water balance in lugworms (Polychaeta: Arenicolidae), with particular reference to *Abarenicola pacifica* in Coos Bay, Oregon ..... 180

Stross, R. G., S. W. Chisholm and T. A. Downing
Causes of daily rhythms in photosynthetic rates of phytoplankton ..... 200

Van Auken, Oscar W. and Irving B. McNulty
The effect of environmental factors on the growth of a halophylic species of algae ..... 210

No. 2, October, 1973

Ball, Eldon E.
Electrical activity and behavior in the solitary hydroid *Corymorpha palma.* I. Spontaneous activity in whole animals and in isolated parts 223

Ball, Eldon E. and James F. Case
Electrical activity and behavior in the solitary hydroid *Corymorpha palma.* II. Conducting systems ..... 243

Brown, Frank A., Jr. and Carol S. Chow
Lunar-correlated variations in water upatke by bean seeds ..... 265

Costello, Donald P.
A new theory on the mechanics of ciliary and flagellar motility. I. Supporting observations ..... 279

COSTELLO, DONALD P.
A new theory on the mechanics of ciliary and flagellar motility. II. Theoretical considerations ..... 292

DAVIS, C. WILLIAM, UNNI E. H. FYHN AND H. J. FYHN
The intermolt cycle of cirripeds: criteria for its stages and its duration in *Balanus amphitrite* ..... 310

FENNER, DOUGLAS H.
The respiratory adaptations of the podia and ampullae of echinoids (Echinodermata) ..... 323

GROSCH, DANIEL S.
Reproduction tests: the toxicity for *Artemia* of derivatives from non-persistent pesticides ..... 340

KOOPOWITZ, HAROLD
Primitive nervous systems. A sensory nerve-net in the polyclad flatworm *Notoplana acticola* ..... 352

LASH, JAMES W., RICHARD A. CLONEY AND RONALD R. MINOR
The effect of cytochalasin B upon tail resorption and metamorphosis in ten species of ascidians ..... 360

SAWYER, ROY T. AND DONALD L. HAMMOND
Observations on the marine leech *Calliobdella carolinensis* (Hirudinea: Piscicolidae), epizootic on the Atlantic menhaden ..... 373

WOLCOTT, THOMAS G.
Physiological ecology and intertidal zonation in limpets (*Acmaea*): a critical look at "limiting factors" ..... 389

Abstracts of papers presented at the Marine Biological Laboratory ..... 423

No. 3, DECEMBER, 1973

ANSEVIN, KRYSTYNA D. AND BINIE V. LIPPS
Histogenesis by cells from embryonic and hatched chicks in giant, plate-like aggregates cultured on a porous matrix ..... 463

HASCHEMEYER, AUDREY E. V. AND ROGER PERSELL
Kinetic studies on amino acid uptake and protein synthesis in liver of temperature acclimated toadfish ..... 472

KRUCZYNSKI, W. L.
Distribution and abundance of *Pinnotheres maculatus* Say in Bogue Sound, North Carolina ..... 482

MCMAHON, ROBERT F.
Respiratory variation and acclimation in the freshwater limpet, *Laevapex fuscus* ..... 492

MORTON, BRIAN
The biology and functional morphology of *Laternula truncata* (Lamarck 1818) (Bivalvia: Anomalodesmata: Pandoracea) ..... 509

OHTSU, KOHZOH AND M. YOSHIDA
Electrical activities of the anthomedusan, *Spirocodon saltatrix* (Tilesius) 532

OSTARELLO, GEORGIANDRA LITTLE
Natural history of the hydrocoral *Allopora californica* Verrill (1866) .. 548

PARDY, ROSEVELT L. AND LEONARD MUSCATINE
Recognition of symbiotic algae by *Hydra viridis*. A quantitative study of the uptake of living algae by aposymbiotic *H. viridis* 565

PRINCE, JEFFREY S. AND JOHN M. KINGSBURY
The ecology of *Chondrus crispus* at Plymouth, Massachusetts. III. Effect of elevated temperature on growth and survival..... 580

SCHOPF, THOMAS J. M. AND LYNDA S. MURPHY
Protein polymorphism of the hybridizing seastars *Asterias forbesi* and *Asterias vulgaris* and implications for their evolution..... 589

SMITH, NOEL S.
A new description of *Syndesmis dendrastrorum* (Platyhelminthes, Turbellaria), an intestinal rhabdocoel inhabiting the sand dollar *Dendraster excentricus*..... 598

STUNKARD, HORACE W.
Observations on *Tubulovesicula pinguis* (Linton, 1910) Manter, 1947 and on systematics of the hemiuroid trematodes..... 607

WALDBAUER, G. P. AND J. G. STERNBURG
Polymorphic termination of diapause by Cecropia: genetic and geographical aspects..... 627

# INDEX

A

*Abarenicola*, salt and water balance in, 180
Absorption in crayfish rhabdoms, dependence on pH, 436
Abundance of *Pinnotheres*, 482
Acceleration in swimming bluefish, 434
Acclimation in *Laevapex*, 492
Acclimation of fish, 437
*Acmaea*, ecology and zonation, 389
*Acris crepitans*, seasonal metabolism in, 103
Activity, spontaneous, in *Corymorpha*, 223
Adaptability, respiratory, in littoral and sublittoral snails, 447
Adaptation, convergent, in *Cumingia*, 453
dark, of lobster, 423
of *Fundulus* muscle and liver lactate dehydrogenase, 428
and diapause termination in Cecropia, 627
respiratory, in echinoids, 323
ADELMAN, W. J., JR. See R. V. RICE, 452
*Aedes aegypti*, blood-feeding behavior of, 127
AFZELIUS, B. A. See D. C. CHANG, 428
Age-related histogenesis in aggregates, 463
Aggregates, age-related histogenesis in, 463
Aggregation factor, marine sponge, specificity of, 444
Aldehyde analogs and bacterial bioluminescence, 432
Algae, ecology of, 580
growth, effect of environmental factors on, 210
living, uptake by *Hydra*, 565
saltmarsh, growth on amino acids, 426
Algal extracellular products, effect on marine bacteria, 424
*Allopora californica*, natural history of, 548
Allozymes in *Littorina*, 83
*Amaroucium constellatum*, effect of thyroxine on growth of, 435
Amino acid regulation of cell volume in *Modiolus*, effect of calcium antagonism on, 435
Amino acid uptake in toadfish liver, 472
Amino acids, activation of feeding in reef-building corals, 140
growth of saltmarsh algae on, 426
Aminonaphthalene derivatives applied internally to squid giant axons, 457
Amphibia, seasonal metabolism in, 103
Ampullae, echinoid, respiratory adaptations of, 323
Ancylidae, respiratory variation and acclimation in, 492
Annual Report of the Marine Biological Laboratory, 1
ANSEVIN, K. D., AND B. V. LIPPS. Histogenesis by cells from embryonic and hatched chicks in giant, plate-like aggregates cultured on a porous matrix, 463
Anthomedusa, electrical activities of, 532
Anura, seasonal metabolism in, 103
Apical tuft and gut, formation in *Cerebratulus*, 452
*Arbacia*, independence of mRNA activation from polyadenylation in, 447
particle release from activated eggs of, 440
sperm antigens, isolation of, in fertilization, 430
eggs, heat production of, 450
premature cleavage in, 454
re-fertilization of, 455
*Arbacia punctulata*, blastomeres, ultrastructure of, 428
development of, 439
egg proteins of, 460
eggs, activation of, 443
*Arenicola*, salt and water balance in, 180
*Argopecten irradians*, host for *Pinnotheres*, 482
ARMSTRONG, C. M., AND F. BEZANILLA. Properties of the gating currents of sodium channels, 423
*Artemia* reproduction after pesticide exposure, 340
Ascidian eggs, endodermal alkaline phosphatase in, 459
Ascidians, tail resorption and metamorphosis in, 360
*Asterias forbesi*, protein polymorphism of, 454
protein polymorphism of, 589
*Asterias vulgaris*, protein polymorphism of, 454
protein polymorphism of, 589
ATP, modifier of boney fish hemoglobins, 437
*Aufwuchs* communities, salt marsh, diatom assemblages from, 445
Axon, squid, behavior of aminonaphthalene derivatives in membrane of, 457
squid giant, effects of calcium on ionic currents in, 446
squid giant, fluorescence during excitation, 429
squid giant, thallium fluxes in, 445
plasma membrane of squid, and calcium association, 451
Axonemes, sea urchin, and chick brain tubulin, 424

of cilia and flagella, 279, 292
Axoplasm, squid, filamentous components of, 460

B

Bacteria, luminescent, in culture, 442
marine, effects of algal extracellular products on, 424
Bacterial bioluminescence and aldehyde analogs, 432
Bacteriophages, in sea water, 431
BAGCHI, M. See C. V. HARDING, 438
*Balanus amphitrite*, intermolt cycle of, 310
BALL, E. E. Electrical activity and behavior in the solitary hydroid *Corymorpha palma*. I. Spontaneous activity in whole animals and in isolated parts, 223
AND J. F. CASE. Electrical activity and behavior in the solitary hydroid *Corymorpha palma*. II. Conducting systems, 243
BARLOW, R. B., JR. See E. KAPLAN, 442
Barnacles, intermolt cycle in, 310
BARNES, S. N., AND T. H. GOLDSMITH. Dark adaptation of lobster, 423
BARRETT, D. See J. L. GRAINGER, 437
BAYER, D. S. See E. KAPLAN, 442
Bean seeds, variation in water uptake, 265
BEGENISICH, T., AND C. LYNCH. Reversible blockage of ionic currents by internal Zn, 424
BEGENISICH, T. See C. LYNCH, 446
Behavior, coelenterate, 223, 243
Behavior in *Corymorpha*, 223, 243
Behavior in flatworms, 352
Behavior of *Photinus*, 427
BELL, W., AND R. MITCHELL. Effects of algal extracellular products on marine bacteria, 424
BENNETT, M. V. L. See W. T. CLUSIN, 429
See H. KORN, 433
BENTLEY, D. See A. EBERHARD, 432
BERGER, E. M. Gene-enzyme variation in three sympatric species of *Littorina*, 83
BEZANILLA, F. See C. M. ARMSTRONG, 423
BIGGS, D. C., AND J. J. MCDERMOTT. Variation in temperature-salinity tolerance between two estuarine populations of *Pagurus longicarpus* Say (Crustacea: Anomura), 91
BINDER, L. I., AND J. L. ROSENBAUM. Directionality of assembly of chick brain tubulin onto sea urchin flagella microtubules, 424
BINGHAM, S. E., AND J. A. SCHIFF. Conditions for attachment of single cells released from mechanically-disrupted thalli of *Prasiola stipitata* Suhr, 425
Biology of *Laternula*, 509
Bioluminescence, bacterial, and aldehyde analogs, 432
Bioluminescence of *Ophiopsila californica*, 426
Bivalvia, biology and functional morphology of, 509
BLANQUET, R. S. See M. J. LOEB, 150
Blockage, reversible, of ionic currents by internal Zn, 424
Bluefish, acceleration, kinetic energy changes and gaits of locomotion in, 434
BOHR, V. A. See H. B. POLLARD, 449
BORGESE, T. A., J. M. DUVA, AND D. POWERS. Some chemical and physical properties of *Fundulus* hemoglobins, 425
BORISY, G. G. See SHINYA INOUÉ, 441
Brain microtubules and associated protein of dogfish, 427
BREHM, P. H., J. G. MORIN, AND G. T. REYNOLDS. Bioluminescent characteristics of the ophiuroid, *Ophiopsila californica*, 426
BREWER, L., AND J. GIBSON. Ecological aspects of photoheterotrophic and heterotrophic growth on amino acids, 426
BROWN, F. A., JR., AND C. S. CHOW. Lunar-correlated variations in water uptake by bean seeds, 265
BUCK, J. See J. CASE, 427
BURGER, M. See W. J. KUHNS, 444
BURNS, R. G., AND T. D. POLLARD. Isolation of a dynein-like protein associated with brain microtubules, 427
*Busycon canaliculatum*, innervation of radular protractor muscle of, 454
neural control of the heart of, 448

C

Calcium, internal, effect on ionic currents in squid giant axons, 446
Calcium and the squid axon plasma membrane, 451
Calcium antagonism, effect on amino acid regulation of *Modiolus* cell volume, 435
Calcium binding in frog synaptic vesicles, 449
*Callinectes sapidus*, pigment migration in, 159
*Calliobdella carolinensis*, biology of, 373
Canal, semicircular, of the skate, 433
Carbamate insecticide derivatives, effect on *Artemia reproduction*, 340
Carpospore, growth and survival, 580
CASE, J., AND J. BUCK. Behavioral analysis of visual communication in the firefly *Photinus greeni*, 427
See E. E. BALL, 243
CAVANGA, G. A. See R. S. FOX, 434
Cecropia, polymorphic termination of diapause by, 627

Cell, corneal epithelial, surfaces in elasmobranchs and teleosts, 438
Cell attachment after release from disrupted *Prasiola* thalli, 424
Cell division in *Mnemiopsis*, 434
Central elements of axonemes, role of in motility, 292
*Cerebratulus lacteus*, formation of apical tuft and gut in, 452
*Chaetopterus* oocytes, growth of spindles from, 441
CHANG, D. C., AND B. A. AFZELIUS. Electron microscopic study on membrane junctions of *Arbacia punctulata* blastomeres, 428
Characterization of cell walls from developing *Fucus* embryos, 446
Chicks, embryonic and hatched, histogenesis by cells from, 463
CHISHOLM, S. W. See R. G. STROSS, 200
*Chlorella pyrenoidosa*, sulfur required for life cycle of, 455
*Chondrus crispus*, ecology of, 580
occurrence of kappa- and lambda-carrageenan in, 433
CHOW, C. S. See F. A. BROWN, JR., 265
Chromophoric site of squid retinochrome, 440
*Chrysaora quinquecirrha* polyps, feeding behavior in, 150
Ciliary currents in echinoids, 323
Cirripeds, intermolt cycle of, 310
CLARK, V., AND D. A. POWERS. Environmental adaptation of *Fundulus heteroclitus* muscle and liver lactate dehydrogenase, 428
Claws, cutter and crusher, of the lobster, closing in, 436
Cleavage, premature, in *Arbacia* eggs, 454
CLONEY, R. A. See J. W. LASH, 360
CLOUD, J. G., AND A. W. SCHUETZ. Evidence of l-methyladenine synthesis by isolated starfish ovarian follicle cells *in vitro*, 429
CLUSIN, W. T., AND M. V. L. BENNETT. Calcium electrogenesis in skate electroreceptors, 429
Coelenterate electrophysiology, 223, 243
COHEN, L. B., B. M. SALZBERG, AND H. V. DAVILA. Changes in fluorescence of a squid giant axon during excitation, a demonstration, 429
COHEN, L. B. See H. V. DAVILA, 431
Coiling and straightening of microtubules, 279
COLE, K. S. See E. J. PROSEN, 450
Color, seen by fireflies, 444
Communication, visual, in the firefly, 427
Components, filamentous, of isolated squid axoplasm, 460
Compound D-600, effects at the squid giant synapse, 448
Conducting systems, in *Corymorpha*, 243
Coral, reef-building, feeding activation in, 140
CORDLE, C. T., AND C. B. METZ. Isolation of *Arbacia* sperm antigens important in fertilization, 430
CORNELL, J. C. A reduction in water permeability in response to a dilute medium in the stenohaline crab *Libinia emarginata* (Brachyura, Majidae), 430
Cortical granule protease, function of, 455
*Corymorpha palma*, electrical activity and behavior in, 223, 243
COSTELLO, D. P. A new theory on the mechanics of ciliary and flagellar motility. I. Supporting observations, 279
A new theory on the mechanics of ciliary and flagellar motility. II. Theoretical considerations, 292
COUCH, E. See SADAYUKI INOUÉ, 440
See M. KIRSTEN, 443
Counter-currents in echinoids, 323
Crab, hermit, populations, tolerance in, 91
pea, distribution of, 482
stenohaline, water permeability reduction in, 430
swimming, pigment migration in, 159
Crayfish rhabdoms, absorption in, 436
CREMER, G., AND Z. DISCHE. Glycosaminoglycans in lens capsules of dogfish, 431
Cryolite and bivalve burrowing, 453
Ctenophore, cell division and ontogeny of localizations in, 434
Culture, cell, monolayer, lobster CNS tissue in, 444
*Chondrus crispus*, 580
luminescent bacteria in, 442
organ, recordings of *Limulus* lateral eye, 442
*Cumingia tellinoides*, life-habits of, 453
Currents, ionic, in squid giant axons, effect of internal calcium on, 446
CURTIS, P., AND K. NEALSON. The use of enrichment techniques to study marine bacterial viruses, 431
Cuticle deposition in cockroaches, 171
Cytochalasin B, effect on ascidian tail resorption, 360
Cytochalasin B and cleavage block in *Mnemiopsis*, 434
Cytoplasmic filaments in ascidians, 360

D

DAVILA, H. V., B. M. SALZBERG, AND L. B. COHEN. Optical recording of neuronal impulses in the leech central nervous system, 431

DAVILA, H. V. See L. B. COHEN, 429
DAVIS, C. W., U. E. H. FYHN, AND H. J. FYHN. The intermolt cycle of cirripeds: criteria for its stages and its duration in *Balanus amphitrite*, 310
*Dendraster excentricus*, inhabited by *Syndesmis*, 598
*Depolarization*, reversible, caused by internal Zn, 424
Deposit feeding bivalves, 453
DERR, J. See F. FONG, 433
Desiccation, effect on limpet ecology and zonation, 389
Development of *Arbacia*, 439
Diapause termination by Cecropia, 627
Diatom assemblages, salt marsh, manipulation of, 445
Differentiation, molt-linked, effects of β-ecdysone on, 171
DISCHE, Z. See G. CREMER, 431
Disease transmission in winter flounder and smelt, 459
Distribution of *Pinnotheres*, 482
Dogfish, free-swimming, brain electrical activity of, 443
Dogfish brain microtubules, 427
Dogfish lens capsules, glycosaminoglycans in, 431
Dogfish lens proteins, electrophoretic studies of, 438
DOWDALL, M. J. See J. L. FELDMAN, 432
See H. B. POLLARD, 449
DOWNING, T. A. See R. G. STROSS, 200
DUBOIS, A. B. See R. S. FOX, 434
*Dunaliella*, effect of environmental factors on growth of, 210
DUNLAP, D. G. Latitudinal effects on metabolic rates in the frog, *Acris crepitans*: seasonal comparisons, 103
Duration of *Balanus* intermolt cycle, 310
DUVA, J. M. See T. A. BORGESE, 425
Dynein-like protein in dogfish brain, 427

E

EBERHARD, A., D. BENTLEY, AND R. SOLSKY. Aldehyde analogs and the mechanism of bacterial bioluminescence, 432
Ecdysone, beta, effect on molt-linked differentiation, 171
Echinoid respiratory podia, 323
Ecology, physiological, of limpets, 389
Ecology of *Chondrus*, 580
Eggs, *Arbacia*, heat production of, 450
*Arbacia*, re-fertilization of, 455
ascidian, endodermal alkaline phosphatase in, 459
sea urchin, activation of, 443
sea urchin, particle release from, 440
sea urchin, proteins of the surface of, 437
unfertilized, of *Lytechinus*, phosphatase activity in, 458
Elasmobranchs, corneal epithelial cell surfaces in, 438
Electric organ, *Torpedo*, muscle proteins in, 441
Electrical activity in *Corymorpha*, 223, 243
Electrical activity of *Spirocodon*, 532
Electrocardiograms of free-swimming dogfish, 444
Electrogenesis, calcium, in skate electroreceptors, 429
Electromyograms of free-swimming dogfish, 444
Electron microscopy of cilia and flagella, 279
Electrophoresis of dogfish lens proteins, 438
Electrophoresis of *Fundulus* hemoglobins, 425
Electrophoresis of protein polymorphism of seastars, 454
Electroreceptors, skate, calcium electrogenesis in, 429
Electroretinogram measurement of lobster dark adaptation, 423
Embryos, *Fucus*, cell wall isolation and characterization, 446
Environment, effect on algae growth, 210
Enrichment techniques used in study of marine viruses, 431
Epizootic, leech on menhaden, 373
EPSTEIN, K. D. See E. A. KRAVITZ, 444
Evolution of hybridizing seastars, 589
Excitation, fluorescence of squid giant axon during, 429
Eye, lateral, of *Limulus*, recordings of, 442
Eye withdrawal reflex in puffer fish, 443

F

Fecundity of *Artemia*, 340
Feeding, blood, by mosquitoes, 127
Feeding activation in *Montastrea*, 140
Feeding behavior in *Chrysaora* polyps, 150
FEIN, A. Local adaptation in the ventral photoreceptor of *Limulus*, 432
FELDMAN, J. L., AND M. J. DOWDALL. 5-hydroxytryptamine: an uptake mechanism in synaptosomes from the optic lobe of squid (*Loligo pealii*), 432
FENNER, D. H. The respiratory adaptations of the podia and ampullae of echinoids (Echinodermata), 323
Fertilization, isolation of *Arbacia* sperm antigens in, 430
Firefly, visual communication in, 427
Firefly color vision, 444
Fish, acclimation of, 437

oculomotor neurons, electronic coupling and impulse initiation in, 443
protein metabolism, 472
Flatworm sensory nerve-net, 352
Flatworms, a new description, 598
FLOCK, A., AND M. H. GOLDSTEIN, JR. Preliminary studies of the skate's semicircular canal, 433
Flounder, winter, disease transmission in, 459
Fluorescamine as a reagent, 458
Fluorescence behavior in squid giant axons, 429, 457
Fluxes, thallium, in squid giant axon, 445
Follicle cells, starfish ovarian, synthesis of methyladenine by, 429
FONG, F., J. DERR AND F. LOEWUS. The occurrence and sulfation of kappa- and lambda-carrageenan in *Chondrus crispus*, 433
FOX, R. S., G. A. CAVAGNA AND A. B. DUBOIS. Acceleration, kinetic energy changes and gaits of locomotion in swimming bluefish, 434
FREEMAN, G. The relationship between cell division and the ontogeny of the localizations which specify comb plates and photocytes in the Ctenophore *Mnemiopsis*, 434
See R. REESE, 452
Frog neuromuscular junction, calcium binding sites in synaptic vesicles of, 449
*Fucus* embryos, isolation and characterization of cell walls from, 446
FUKUMOTO, M. The effect of thyroxine on the growth of the ascidians *Perophora viridis* and *Amaroucium constellatum*, 435
*Fundulus* hemoglobins, properties of, 425
*Fundulus heteroclitus* muscle and liver lactate dehydrogenase, adaptation of, 428
Fusion curve, recorded from skate retina, 438
FYHN, H. J. See C. W. DAVIS, 310
FYHN, U. E. H. See C. W. DAVIS, 310

## G

Gasterostome trematodes of the Woods Hole region, 456
Gating currents of sodium channels, properties of, 423
Gene frequencies in natural populations, 450
Genetic and geographical aspects of diapause termination by Cecropia, 627
Genetic variation in *Littorina*, 83
Genetics of the seastar, 589
Geographic variation in *Acris*, 103
GIBSON, J. See L. BREWER, 426
GILBERT, M. A. Growth rate, longevity and maximum size of *Macoma balthica* (L.), 119
Gills, echinoid, 323
GIRSCH, S. J., AND S. K. PIERCE, JR. Effect of calcium antagonism on the free amino acid regulation of cell volume in *Modiolus demissus*, 435
Glutamic acid, activation of feeding in reef-building corals, 140
Glycoproteins in dogfish lens capsules, 431
Glycosaminoglycans in dogfish lens capsules, 431
GODFREY, A. See L. SPERLING, 456
GOLDMAN, R. See R. C. RUSTAD, 454
GOLDSMITH, T. H. Dependence of absorption on pH in rhabdoms of crayfish (*Orconectes, Procambarus*), 436
See S. N. BARNES, 423
GOLDSTEIN, M. H., JR. See A. FLOCK, 433
GONZALES, R. See S. G. SIDDELL, 455
GOVIND, C. K., AND F. LANG. Neuromuscular analysis of closing in the cutter and crusher claws of the lobster, 436

Thyroxine, effect on ascidian growth, 435

Tissue, lobster CNS, in monolayer cell culture, 444
Toadfish, amino acid uptake and protein synthesis in liver of, 472
liver, transport of L-leucine by, 439
Tolerance, temperature-salinity, in two populations of *Pagurus*, 91
*Torpedo* electric organ, muscle proteins in, 441
Tosyl lysine chloromethyl ketone, arrest of sea urchin morphogenesis, 452
Transport of L-leucine by toadfish liver, 439
Trematodes, gasterostome, of Woods Hole region, 456
hemiuroid, systematics of, 607
TROLL, W., AND M. LEVY. Fluorescamine as a reagent for quantitating precipitates produced by proteolysis, 458
Tryptophan, UV-irradiated, protein synthesis with, 460
Tubulin, chick brain, and sea urchin flagella microtubules, 424
*Tubulovesicula pinguis*, observations on, 607

U

Ultrastructure, of *Arbacia* blastomeres, 428
of corneal cell surfaces in elasmobranchs and teleosts, 438
Uptake system for L-noradrenaline in squid optic lobe synaptosomes, 449
Urchin, sea, development of, 439
Urchin, sea, eggs, activation of, 443
heat production of, 450
re-fertilization of, 455
morphogenesis, arrest of, 452
particle release from activated eggs of, 440
plutei, ribosomal RNA accumulation in, 457
proteins of the egg surface of, 437
sperm, antigens, isolation, 430
ultrastructure of blastomeres, 428

V

VAN AUKEN, O. W., AND I. B. MCNULTY. The effect of environmental factors on the growth of a halophylic species of algae, 210
Variation, monthly, in water uptake by bean seeds, 265
Vesicles, parolfactory, of *Loligo*, 456
Viruses, marine bacterial, 431
Vision, firefly, color in, 444
Visual communication in fireflies, 427

W

WALDBAUER, G. P., AND J. G. STERNBURG. Polymorphic termination of diapause by Cecropia: genetic and geographical aspects, 627
WALL, B. J. See R. PRUSCH, 451
WALLACE, R. A., M. N. HILL AND R. J. PFOHL. Alkaline phosphatase activity in unfertilized eggs of *Lytechinus variegatus* after removal of endogenous inorganic phosphate, 458
WALLACE, R. A. See M. N. HILL, 439
See P. ROSENBERG, 452
WARASHINA, A. See I. TASAKI, 457
Water permeability in *Libinia*, 430
Water uptake by bean seeds, 265
WEIDNER, E. Studies of microsporidan disease transmission in winter flounder and smelt, 459
WEINSIEDER, A. See C. V. HARDING, 438
WEISS, M. B. See M. A. GRANET, 437
WHITTAKER, J. R. Evidence for the localization of an RNA template for endodermal alkaline phosphatase in an ascidian egg, 459
WHITTAKER, V. P. See H. B. POLLARD, 449
WILSON, W. L. See H. SCHUEL, 455
WITMAN, G., AND J. ROSENBAUM. Filamentous components of isolated squid axoplasm, 460
WOLCOTT, T. G. Physiological ecology and intertidal zonation in limpets (*Acmaea*): a critical look at "limiting factors," 389
Woods Hole region, gasterostome trematodes of, 456

Y

YOSHIDA, M. See K. OHTSU, 532
YULO, T. See S. ZIGMAN, 460

Z

ZIGMAN, S., AND T. YULO. Some abiotic properties of near UV-irradiated tryptophan, 460
ZIGMAN, S. See G. GRIESS, 438
Zn, internal, blockage of ionic currents, 424
Zonation, intertidal, in *Acmaea*, 389
vertical, in littoral and sublittoral snails, 447
